

## SELECTION 1

### Use the US nationals as a qualifying contest

Concept: Potential pilots would attend the US nationals in either or both of 2021 and 2022. The team would be selected based on the highest percentage from either contest, so all aspirants would have two chances to make the team.

#### Pros:

- 1) Infrastructure and contest planning issues would not be a problem.
- 2) All candidates would have two chances to make the team. This mitigates issues where for some reason or other a pilot could not attend one of the two contests.

#### Cons:

- 1) It's a long way for everyone to go.
- 2) There's no guarantee that any Canadian will be able to cross the border for this purpose in 2021. 2022 seems more likely, but even that might be iffy.
- 3) Maintenance & other issues may keep pilots from attending.
