

## SELECTION 3

### Hold two qualifying camps, one at each end of the country

Concept: Same as the single-camp scenario in Manitoba, but would have 2 camps instead of one. We would utilize the same coach and team selection committee.

#### Pros:

- 1) Much more convenient for pilots to attend.
- 2) No contest infrastructure is needed for this option
- 3) Utilizing the same coach and team selection committee would allow an apples-to-apples comparison.
- 4) Having all pilots working with a coach would probably reveal more about the pilot's skills than a contest might.

#### Cons:

- 1) Expensive – participants would have to pay for the coach and the members of the team selection committee to attend.
- 2) Weather, personal and maintenance issues may prevent a pilot from attending.
